EDUCATION

University of California San Diego

Expected Jun 2027

B.S. in Data Science, Minor in Cognitive Science | GPA: 3.7/4.0

Yonsei University | Study Abroad

Sep 2025 - Dec 2025

TECHNICAL SKILLS

Languages: Python, Java, SQL, R, JavaScript, Bash

Libraries & Tools: Pandas, NumPy, scikit-learn, PyTorch, Flask, Git, Docker, Ansible, Tableau

Platforms & Data: AWS (EC2, S3), PostgreSQL, Linux, SAP HANA, SAP S/4HANA

PROFESSIONAL EXPERIENCE

Managed Cloud Delivery Intern | Resolve Technology Solutions

Jun 2026 - Aug 2026

- Built reusable Ansible automation for SAP HANA primary/DR validation and Linux pre-patch health checks, automating 35+ system and application checks
- Automated validation of OS configuration, filesystems, packages, SAP services, HANA replication, backups, alerts, and host naming standards, reducing repetitive manual verification during patch-readiness assessments

Software Development Intern | Moffett Technologies

Jun 2025 - Aug 2025

- Improved an OAuth 2.0 authorization server by fixing option-handling defects, refining Docker hostname resolution, and adding automated HTML test report generation
- Debugged and enhanced distributed Java backend services for air traffic management and Advanced Air Mobility systems, including coordination and synchronization components
- Built data-processing scripts to automate transformation workflows and generate standardized output formats

Data Analytics Volunteer Intern | NASA Ames Research Center

Jun 2022 - Aug 2022

- Built and analyzed a dataset of 60+ NASA SmallSat and CubeSat missions from the S3VI database to examine mission characteristics and outcomes; co-authored a research paper with researchers at NASA Ames Research Center

PROJECTS

[Terminal to Inbox](#) | Python, Google APIs, Notion API, REST APIs

May 2026

- Built a Python CLI aggregating calendar, tasks, weather, news, and AI-generated summaries into a daily email digest

[Which Age Group is the Most Fit?](#) | JavaScript, D3.js, HTML/CSS

Mar 2025

- Built an interactive visualization and simulation using PhysioNet treadmill-test data to compare running duration, oxygen consumption, and cardiovascular performance across 6 age groups, with gender-based exploration controls

[Recipe Complexity vs. Popularity](#) | Python, Pandas, scikit-learn, Random Forest

Dec 2024

- Analyzed 83K+ recipes and 731K+ interactions; tuned Random Forest with 5-fold CV, raising R^2 from 0.834 to 0.895

LEADERSHIP

Hackathon Operations Director | ACM @ UCSD

May 2026 - Present

- Lead operational planning and develop the event-day runbook for ACM @ UCSD's annual hackathon, coordinating scheduling, logistics, and execution across 500+ participants

External Events Director | KoJobs @ UCSD

Jan 2024 - Present

- Organize, plan, and lead workshops, job fairs, and networking events to support Korean students' career development

Vice President of Volunteers | Silicon Valley Korean School

Aug 2020 - Jun 2023

- Managed and coordinated 210+ volunteers while supporting day-to-day operations in the main office

AWARDS

DSC 106 People's Choice Award; Project 3 Best Project Award (Top 8%)

Mar 2025

President's Volunteer Service Award - Gold

Jun 2023
